Director of Data Processing

SUBJECT: ODP Report for Week Ending 6 February 1980 (U)

ODP Management Conference (U)

D/ODP and his deputies held a management conference with
ODP Division and senior Staff Chiefs at ▮▮▮▮ from   25X1A
3-6 February 1980. The primary agenda topics were personnel
management and career development. D/ODP kicked off the
conference by briefing the group on EXCOM decisions related
to the NAPA Report recommendations and their probable impact
on ODP. This was followed by presentations by Division
Chiefs in which they discussed personnel management issues
of concern to them and their people. After identifying areas
of common concern, the Division Chiefs returned to Head-
quarters on 5 February. D/ODP, his deputies, and senior
staff remained until 6 February to draft the outline of a
career development program to be developed by the major com-
ponents of ODP. Everyone agreed that the conference was a
useful first step in consolidating and articulating ODP's
career development and personnel management programs. (U)
